JIBIN GEORGE

Mechanical Engineer, UPDA Approved

PROFESSIONAL SUMMARY

Experienced operation and maintenance professional with 6+ years of expertise in MEP engineering and facility operations. Skilled in managing various systems and equipment, such as domestic water plants, pressure vessels, heat exchangers, AHUs, FCUs, VAV, VRF, and BMS control systems. Extensive knowledge of hard services, including fire protection systems, filtration systems, and irrigation systems. Strong adherence to international standards and project requirements, particularly in the Middle East region. Proven ability to troubleshoot MEP systems and implement preventive maintenance programs to minimize equipment failure and downtime. Seeking a challenging role as a MEP engineer to contribute to project success and ensure optimal performance and reliability.

WORK EXPERIENCE

Mechanical Engineer **05/2019 – 06/2023**
TAKYEEF Electromechanical WLL Qatar
Lusail iconic stadium Project & Aspire zone Foundation project

As an experienced engineer, I was fortunate enough to work on the prestigious QATAR world cup 2022 project. Through my involvement, I gained extensive knowledge and technical expertise in a high-profile event that demanded meticulous attention to detail.

- Proficient in conducting routine maintenance checks, preventive maintenance, and repair service works on HVAC systems. Skilled in diagnosing and troubleshooting complex HVAC issues to ensure peak operational performance.
- Experienced in inspecting, testing, and maintaining fire protection systems, including fire pumps, fire hydrants, and fire alarm panels. Knowledgeable in conducting regular inspections, testing, and maintenance activities, and maintaining accurate records.
- Skilled in diagnosing and solving plumbing problems efficiently. Proficient in reading technical manuals and blueprints, troubleshooting plumbing issues, and coordinating with other maintenance teams. Able to ensure high-quality work and proper documentation.
- Proficient in organizing, coordinating, and managing day-to-day operations of MEP systems. Skilled in preparing method statements, reviewing quotations, managing budgets, and scheduling resources. Experienced in conducting site inspections, preparing reports, and conducting risk assessments.

Mechanical Engineer **2017 - 2019**
Four-star cooling systems
Thiruvananthapuram, Kerala IN
Courtyard Marriott 5-star hotel Construction project and after DLP

- Overseeing the installation of HVAC systems and supervising the installation of heating, ventilation, and air conditioning (HVAC) systems on the construction site with maintained project timelines
- Managing installation team, including assigning tasks and responsibilities, providing guidance and support, and overseeing their work.
- Coordinating with other construction teams, such as electricians, plumbers, and general contractors, to ensure that the HVAC systems are installed correctly and efficiently.

CERTIFICATIONS

- First Aid with CPR & AED (valid up to 2023)
- Scaffold Inspector (Valid up to 2024)
- Confined Space Supervisor (Valid up to 2024)

- MEP Systems Management

- Conduct regular inspections and testing of HVAC systems to ensure that they are functioning correctly and efficiently. This includes checking for leaks, adjusting thermostats, and ensuring that all components are working properly.
- Troubleshooting problems that arise during the installation process, such as equipment malfunctions or installation errors.
- Communicate with clients and customers to understand their needs and address any concerns or questions they may have about the HVAC installation process

Customer service supervisor **2016 - 2017**
Merryland TVS Motors Kollam, Kerala IN

As a Service Supervisor at TVS Motors, my primary role is to oversee daily service operations, ensuring efficiency and meeting targets. I am dedicated to providing excellent customer service by addressing inquiries, resolving issues. Quality assurance is a key focus, as I conduct inspections and implement measures to improve service standards. As a team leader, I motivate and guide technicians, providing training and evaluating performance for a high-performing service department. Efficient inventory management and accurate documentation are also part of my skill set. Overall, I bring a comprehensive set of skills to effectively manage service operations, prioritize customer satisfaction, and drive team success at TVS Motors.

- Overseeing daily service operations, assigning tasks to technicians, and ensuring efficient workflow to meet service targets.
- Addressing customer inquiries, resolving service-related issues, and maintaining strong customer relationships.
- Monitoring service quality, conducting inspections, and implementing measures to improve service standards.
- Managing and motivating a team of technicians, providing training, and evaluating performance to drive a high-performing service department.
